Connaught Place, New Delhi-11000

- Layats provide :**
- + tri ply raw material
 - + tri ply cookware
 - + glass lid for tri ply cookware
 - + handle for tri ply cookware
 - + machine to make tri ply cookware

Process

Mechanical properties of metal layered composites

Material	Recombination ratio (mm)	Tensile(Mpa)	Yield(Mpa)	Extend %
304+1050+3003 +1050+430	0.5+0.1+1.0+0.1+0.6	290~360	210~280	≥ 30
304+1050+304	0.5+1.0+0.5	350~420	180~260	≥ 30
304+1050+304	0.5+1.2+0.6	280~350	200~270	≥ 30

- ◆ Continuous in-line heating and rolling of composite polymetallic composites technology
- ◆ Has reached the domestic leading level and reached the international advanced level
- ◆ One-pass rolling lamination of 2-layer, 3-layer and 5-layer multi-metal composite materials is possible
- ◆ Mature technology, stable performance, high production efficiency and fast delivery time
